Descriptive paragraph writing on person -

Description of People is a biographical sketch of their lives from birth to the present time, highlighting major events and achievements during that span. In short it entails a person's characteristics and events related to his life and their effects on his life.

Some points to follow to write paragraph-

- Use descriptive language such as metaphors and similes to paint a visual picture of a person in the reader's mind.
- Think of descriptive adjectives - adventurous, clumsy, grumpy, annoying.
- Use examples of creative and descriptive writing to inspire a fresh and exciting approach.

Example to make the concept more clear-

- You love your father very much, for he is an ideal father. Describe him in your own words in 100-150 words.

Answer:

Mr Raj Gupta is my father. He is a very polite and caring person. He loves me very much. Although he is a very busy person, yet he pays full attention to me and helps my mother in household chores. He is an ideal father to me. Once I fell seriously ill. It took four days and five nights to recover. All those days he took leave from his office and did not sleep the whole night while he sat beside me.

When I recovered, he took a sigh of relief. He is a true friend and counsellor to me. Without him I am lost. I pray to God to make him happy throughout the life.

- One of your friends, Raman, is very gentle and polite to you. You regard him as your best friend. Describe him in 100-150 words.

Answer:

I have many friends. Of them, Raman is my best friend. He is the friend I have always longed for. We are also classmates. He always stood by me in support during misfortunes. He is also a healthy critic as his criticism always helps me improve my behaviour and personality. Being a topper in the class, he also helps me in my studies. To conclude, he has been a boon to me. In the evening, he comes to me. We do homework together. Then we go to the park for playing

and workout. Whenever I am wrong he explains to me my mistakes and tells me what to do next. I pray to God to bless upon our company forever.

Examples on famous personality-

- Describe your favourite dancer in 100-150 words.

Answer:

I have come across many dancers in my life and fond of most but Madhuri Dixit is my favourite.

She is an Indian actor. She has been praised by critics for her dancing skills. When she dances, her movements sway the air. I have watched all her movies in which she gave superb dancing performances. She speaks very well through her dance postures. It seems that she has dance in her DNA. She dances collectively but if we go into deep we will discover that every part of her body is dancing individually. In 2008, she was awarded the Padma Shri by the Government of India.

- Write a short descriptive paragraph on the famous Indian scientist Sir CV Raman in 100-150 words on the basis of the following inputs.

Born on 7 November 1888 in Madras—Physician by profession—worked in the field of light scattering—the discovery is known as ‘Raman Effect’—won Nobel Prize in 1930 for his discovery—elected ‘Fellow of the Royal Society’ in 1924—in 1954 India honoured him with its highest civilian award ‘Bharat Ratna’—breathed his last on 21 November 1970.

Answer:

Sir Chandrasekhara Venkata Raman born on 7 November 1888, in the former Madras Province of India (presently Tamil Nadu) was an Indian physician who carried out ground-breaking work in the field of light scattering. He discovered that when light traverses a transparent material. Some of the deflected light changes wavelength. This phenomena of “Raman effect” earned him the 1930 Nobel Prize for Physics.

Raman was honoured with a large number of honorary doctorates and memberships of scientific societies. He was elected a Fellow of the Royal Society early in his career in 1924 and knighted in 1929. He later resigned from the fellowship in 1968 for reasons unrecorded, the only Indian FRS ever to do so. In 1954, India honoured him with its highest civilian award, the Bharat Ratna and celebrates National Science Day on 28 February of every year to commemorate the discovery of the Raman effect in 1928. Raman breathed his last on 21 November 1970.
